Abstract

Your paper should include a short abstract of about 100-150 words giving a brief account of the main points of the paper. Please use abstract style.

1 Introduction Heading 1 style

Your introduction should set the scene for the reader, define the issues to be addressed in your paper and the target audience. While there is no minimum length, we suggest that your paper should be five pages in length with a maximum length of eight pages. The first paragraph in each section, should use paragraph 1 style. Each subsequent paragraph should use paragraph 2 style and use the tab for the first sentence within that paragraph. It is important that your introduction provides an adequate overview and focus for your paper to ensure that the reader is willing to continue reading. Please ensure that your paper clearly defines the issues that you are addressing. Remember that your project is simply the vehicle through which the information is gathered and it should not be the primary focus of the paper as the issues it is addressing are of more interest to the conference audience. The references to literature should be noted in the main text by an Arabic number in square brackets e.g. [1]. List these in numerical order at the end of the paper in the reference section.
